How to Create Talent Satisfaction Through a Great Workspace Environment

Thursday, August 30th, 2018
2018年8月30日 星期四

18:30-21:00

@Haworth Furniture Shanghai

Dear Members and Friends of SwissCham,

Talent attraction, engagement and retention are amongst the biggest challenges that companies face today in a dynamic market like China. We know that engaged teams drive results and strategic transformations, which are the two single most important things that general managers, CEOs and presidents of companies are asked to do in their mandates. Workspace environment is a key element in talent satisfaction, as it can have a significant aspect on the employees' morale, their health, their interaction with other colleagues and, ultimately, on their performance.

We invite several speakers to talk about their experiences and how they create workspace environments that help their key employees to perform better.

Best regards,

Your SwissCham Team
