

Swiss Association & Swiss Chamber of Commerce

**Joint Monthly Luncheon – 6<sup>th</sup> June, 2016**

Guest Speaker: Mr. Richard Lancaster, Chief Executive Officer, CLP Holdings

**Climate Change - COP21 and Beyond: What's in it for Business**

The agreement reached at COP21 will continue to have sweeping effects on global economic/energy policy, as well as environmental quality and personal lifestyles of societies throughout the globe. Subsequently, the growing importance for businesses to actively engage in sustainability targets has never been more pertinent. Sustainability initiatives and climate change is everyone's business, and the lunch promises to be both an informative and thought-provoking afternoon. With the support of CLP, we will explore COP21 through the business lens: how its outcomes could affect business strategy and operations, and what action should companies take.

Since joining CLP in 1992, Mr Lancaster has held a variety of managerial positions in the Company. His experience covers project management, power plant operations, commercial, finance, legal and corporate functions. Prior to assuming his role of CEO in 2013, he was the Managing Director of CLP Power, responsible for the company's electricity generation, transmission and distribution business and service to its 2.4 million customers in Hong Kong.

Born in Sydney, Mr. Lancaster spent his early career as a professional engineer in the electricity supply industry in Australia and later with an international brewing company in the UK. He is a founding member of the Advisory Council of AustCham Hong Kong & Macau.
